Dear Mr. Weisberg, WED., 11 FEB '76.

The copy of Post-Mortem ordered for England arrived today and was sent off today - as well as an accompanying letter, under separate cover. Your timing, or the U.S. Mails' timing, was just right. I arrived home after 10 da. in hospital with pneumonia yesterday so that even if the copy of P-M had arrived earlier I would not have been able to post it. It's gone on its way now, however; let's hope that something 'constructive' comes of it! Thank you so much for the note. My best to you and Mrs Weisberg.

Sincerely, James Stern.
